## Increases the impact of fertiliser

Get more from your fertiliser – and give your plants an extra boost: Feralco aluminium sulphate products don't just improve the pH value of the soil, they also increase fertilisers' temperature and water resistance as well as storage stability. And they don't harm the environment or the groundwater – we only use primary raw materials for our aluminium sulphate products. Feralco represents the highest »Made in Germany« quality, thanks to our high-quality materials and a production process that has been tried and tested over 20 years.

Feralco aluminium sulphate products are available in a range of particle sizes and quantities. So you can find the perfect product to suit your needs. **Get your sample pack of aluminium sulphate now and see for yourself!**
